

Accuracy is critical. If you are not sure, do not report it.

Mountain Bluebird Re-Sighting Data Sheet

Plumage: Juvenile (spotted) or Adult

Date	Time	Color Band Combination				Location: Specific		General Location	Substrate (e.g. fence post, ground, telephone wire, etc)	Behavior	Sex	Plumage	Notes
		Right: Top	R: Bottom	Left: Top	L: Bottom	UTM Easting	UTM Northing						
<i>EXAMPLE: 7/5/2017</i>	<i>6:15pm</i>	<i>Purple</i>	<i>Brown</i>	<i>Silver</i>	<i>Green</i>	<i>520403</i>	<i>4818680</i>	<i>NE Corner of Museum of Wildlife Art parking lot</i>	<i>Sitting in Aspen tree</i>	<i>Resting</i>	<i>F</i>	<i>Spotted</i>	<i>Looks like a healthy bird; no abnormalities observed</i>

NOTE: the color combinations recorded on your data sheets refer to the bird's left and right legs (i.e., NOT referring to viewer's left and right). This means that the combination will appear backwards if the bird is facing you. Top refers to the band closest to the bird's body, and bottom is the band closest to the bird's foot.

Band Colors:

					
Silver (metal USGS)	Yellow	Red	Green	Peach	Hot Pink

	
Gray	Black
